

The Palais Royal May Sale.

94c

This Annual Sale of White Lingerie is now an important feature of the world feminine. The Palais Royal policy for a quarter century and more has been: How good—not how cheap. It has come to pass—long since acknowledged—that the Palais Royal is headquarters for best Lingerie. The cheap garments, of coarse materials, illy trimmed with showy but tear-in-the-wash laces and embroideries, are unknown here. Distributing more garments probably than any other three establishments in Washington, with the advantages of a cash business and with the leading makers anxious competitors, the Palais Royal can and does offer best Lingerie at very much the lowest prices in Washington. The fact is so well known that the mere announcement of the May Sale is all-sufficient. The distribution of a new \$75,000 stock begins tomorrow morning with Complimentary Prices as the practical souvenirs.
